

Reference

Animal World, a pet shop based in Dubai (address: Jumeirah 1, Dubai, United Arab Emirates), established a business relationship more than 8 years ago with Family Puppy/Gavia Science (address: Jókai u. 109., Budapest 1196, Hungary, European Union)

Over the past few years we have purchased more than 300 puppies from them.

The puppies were of a high quality.

Proof thereof being that they were all purchased by customers in Dubai reaching their high expectations.

The puppies shipped by Family Puppy/Gavia Science always arrived in good health thanks to the following of strict vaccination protocol and to efficient veterinary supervision.

The documentation accompanying the puppies (EU Pet Passport, Health Certificate) was always precise and professional. The company always abided by the export-import rules and regulations of the dispatching and the receiving countries.

Family-Puppy/Gavia Science is a very reliable company.

The cost of the puppies ordered was always paid in advance, and was promptly shipped to Dubai by Gavia Science.
