

Reference

I, as the owner of the company *Pets Habitat LLC*, which is a pet shop in Dubai (address: Al Barsha 1, Dubai, United Arab Emirates), started a business relationship with the company called *Family-Puppy/Gavia Science Bt.* (address: Jókai u. 109., Budapest 1196, Hungary, European Union) in 2008.

During the past few years we have purchased from the Hungarian company more than 700 puppies that we could sell successfully in Dubai, which is a market with high expectations and selective taste.

The basis for our long-term cooperation has been that *Family-Puppy/Gavia Science Bt.* supplied puppies of high quality, which we received in perfect health. The puppies had been given all the necessary vaccinations in time. The documents accompanying the puppies (health certificate, EU pet passport) were always filled in with exemplary precision.

The shipments arrived by air exactly on time at *Pets Habitat* in Dubai, abiding by all the rules and regulations of both the sending and the recipient country.

Family-Puppy/Gavia Science Bt. is a very reliable company. In accordance with their work process, *Pets Habitat LLC* transferred the purchase price for all the puppies in advance and *Family-Puppy* always shipped each shipment exactly on time.
