

## Reference

I, as the owner of the company *Pets Habitat LLC*, which is a pet shop in Dubai (address: Al Barsha1, Dubai, United Arab Emirates), have been in a business relationship for several years with biologist and dog expert Dr. Michl Gábor, PhD.

During these years, we have purchased more than 700 puppies that Dr. Michl selected for us. Nothing characterizes the quality of puppies better than the fact that we managed to sell each of them in Dubai, which is a market with high expectations and selective taste. The basis for our long-term cooperation has been that the selected puppies were not only of high quality but were in perfect health as well. All the puppies we received had already been given all the necessary vaccinations. The documents accompanying the puppies (health certificate, pet passport) were always filled in with exemplary precision. The puppies arrived by air exactly on time at *Pets Habitat* in Dubai, abiding by all the rules and regulations of both the sending and the recipient country.

Dr. Michl is a very reliable dog expert. In accordance with our work process, *Pets Habitat LLC* transferred the purchase price for all the puppies in advance and Dr. Michl always shipped them exactly on time.
